

Project-StarFall Code Update Report

Cover Sheet

Complete one cover sheet for each pull request. Attach as many copies of `report_sup.pdf` as needed to record its distinct changes. For a redesign, use the justification field to compare the proposed approach with the previous approach.

1. Print the form and complete it by hand in ink.
2. Submit it to the next technical authority with the pull request: Contributor to Component Maintainer, Component Maintainer to Family Maintainer, Family Maintainer to Project Maintainer, and Project Maintainer to a different qualified Family Maintainer.
3. The PR author must keep the original for four months after merge, unless it is sent earlier at the Project Maintainer's request. During the first three months after merge, the Project Maintainer may request delivery. The request must provide the address and required delivery service, and the Hotaru maintenance team will cover the delivery fee. Without such a request, no delivery is required. Failure to retain or produce a requested original may cause the declaration to be treated as unverified or potentially false and referred for governance review.
4. Write in English, Japanese, Traditional Chinese, or Simplified Chinese.

I. Pull request details

Repository: _____ PR number: _____
PR author: _____ Date: _____
Family: _____ Component: _____
Submitted to: _____ Detail pages: _____

II. Submission details

Role: ☐ Contributor ☐ Component Maintainer ☐ Family Maintainer

PR's declared AI tier: ☐ Forbidden ☐ Author-Owned ☐ Human-Led ☐ Co-Authored

AI assistance used in this PR: ☐ No ☐ Yes

If yes: ☐ Design ☐ Code ☐ Tests ☐ Documentation

III. PR author declaration

I have personally reviewed and understand every submitted change, and I accept responsibility for the code covered by this report. The attached detail pages identify the affected code, the design used, and why that design should be adopted. I can explain, modify, test, and debug the work without asking an AI system to reconstruct it for me.

I completed this report, including every attached page, by hand in ink and without AI assistance. The AI disclosure above applies only to work on the pull request.

PR author signature: _____ Date: _____
